

A morning or afternoon at the Ballynatray Simulated Pheasant Shoot is an ideal way to take a break from the office and reward staff or entertain clients.

Set in glorious surroundings one is under the tuition of expert instructors for whom safety is paramount.

All equipment is provided including shotguns and earmuffs. Ladies are welcome to participate as the guns used are 20 bore and the cartridges are a light load which lessens recoil. Alternatively they may just accompany to enjoy the views and the hospitality on offer.

The simulated driven shoot uses up to 10 traps, operated simultaneously and under remote control, providing an out of season experience of driven pheasant shooting. The only limitation on cartridges and clays is the speed at which you can reload!
